

# Responding to School Drug Impairment Calls

## Indiana Drug Enforcement Association and Instructor Bruce R. Talbot Associates, Inc.

This training opportunity gives law enforcement and school staff the recognition tools to document the drug-impaired student and/or school employee. Establishing reasonable grounds for a suspicion based drug/alcohol test is an important component to random drug tests. Video clips of actual drug abusers under the influence provides a real-life learning basis to recognize and document drug impairment. The training provides school staff with the confidence to conduct a fitness-for-duty action for a suspected drug impaired employee, and how to legally deal with an impaired student or staff member.

- April 9th - Evansville, IN  
Ivy Tech College 3501 1st Avenue
- May 9th - Merrillville, IN  
Merrillville H.S. 276 E. 68th Place
